Additionally, raising long-term funds by means of the placements executed as part of the Programme also enables the Issuer to improve its structural liquidity situation. A further business objective of individual placements within the Programme is to provide the Issuer with funds to purchase the greatest possible volume of performing receivables from the loans granted by the commercial banks that are parties to cooperation agreements with the Issuer for the purchase of independent liens. The funds raised through Mortgage Bond and Unsecured Bond placements help the Issuer to maintain and improve the balanced structure of its assets and liabilities
